RESEARCH ASSISTANCE OPPURTUNITY

As an undergraduate student, I am very eager to explore and learn more about the research scope, especially in the field of hydro-climate and geospatial analysis. My main goal is to gain hands-on experience and deepen my understanding of the subject matter. I'm committed, willing to learn, and excited for the opportunity to contribute meaningfully to the research.

RELEVANT SKILLS AND EXPERIENCES

- Hands-on fieldwork in traverse, levelling, and detailing
- GIS experience using QGIS and ERDAS imagine (layer stacking, thermal mapping)
- Basic programming with Python and C++
- Exposure to AutoCAD and MATLAB from GPS survey coursework
- Worked in service roles (cashier, waiter, cleaner) developing discipline and teamwork
- Strong communication and a willingness to learn

TECHNICAL SKILLS

- GIS Software: QGIS, ERDAS Imagine
 - Programming: Python, C++ (basic)
 - Surveying: Traverse, Levelling, Detailing
 - Engineering Software: AutoCAD, MATLAB
 - Microsoft Office (Word, Excel, PowerPoint, Access)
-

EDUCATION & CERTIFICATIONS

Bachelor of Science in Geoinformatics with Honours (In Progress)

University Technology Malaysia, Malaysia
Expected Graduation: 2027

Sijil Tinggi Pelajaran Malaysia (STPM)

SMK Kuala Telemong, Malaysia

EXTRACURRICULAR ACTIVITIES

Gift Unit Member – Compost Creator: Turning Trash Into Treasure

Kelab Riverdale, Jawatankuasa Kolej Mahasiswa (JKM), Kolej Rahman Putra, Universiti Teknologi Malaysia
June 2024

- Contributed actively in the Gift Unit during a campus sustainability initiative focused on composting and waste management.
- Recognized with a certificate of appreciation for participation and support in the program.
